Amy W. Wagner, Ph.D., is a psychologist at the Portland VA Medical Center in Portland, Oregon, where her time is spent between research, clinical, and teaching activities. She has clinical expertise in cognitive-behavioral and dialectical-behavioral psychotherapies and is particularly interested in anxiety disorders and applications of DBT to trauma-related problems. Her research interests include program development, treatment development and outcomes assessment. Her current research focuses on emotional experiencing in women with posttraumatic stress disorder, and treatment development and evaluation for early intervention after traumatic injury.
